

| CASE STUDY

ATG partners with a global leader in ecommerce, payments and marketing services to transform their Finance, HR & IT-SAP organizations to become a true business enabler while improving operations and reducing costs by 70%

The company is one of the leading provider of global e-commerce and marketing services to tens of thousands of companies, both large and small, who rely on it for its proven expertise, comprehensive cloud commerce and marketing and payment solutions. They have a total revenue of USD300+ million and has processed more than USD 35 billion per year in online transactions since 2013. The company aspired to grow its business and increase its global presence. That's where ATG played a pivotal role in setting-up of their semi-captive offshore locations and transitioned the operations from the US to India in different phases, which included Finance, HR & SAP. ATG also took over the responsibilities of maintaining and managing the Shared Services (Finance, HR/Payroll, Procurement) and SAP-IT Support & Development. Handling of operations from India offshore location started in just few weeks and gradually each transition phase was successfully completed. This offshore transition helped them realize significant cost savings and enabled them to concentrate more on their business strategies and expansion.

The offshore team in India is flexible in providing support to the business and its customers globally in the US, Asia-Pacific, Europe in multiple shifts with the offshore team providing 24/7 on-call support. ATG provides Production Support, Application Maintenance, Quality Assurance, Enhancements, Upgrades and System Refresh/Copy as part of the SAP-IT support. ATG also took care of all the complex legal formalities including taxation, which was a major hurdle apart from doing direct business for any foreign company in India from a B2C perspective.

This transition and the quality of the deliveries/operations provided by ATG led the company to start a joint venture with ATG to take care of its entry into India and further its business growth. As part of this venture, ATG was assigned take care of all the transactions on behalf of the company in India.

Key Highlights

- Transitioned around 30 resources in Phase I of the Finance team within 2 months
- In 5 months, set-up the SAP-ERP functions covering around 30-member team for Finance, Sales, Security & Compliance, HR & Reporting including other intermediate systems under Phase II
- The Overall Customer Support teams have grown to 70+ in the Offshore locations Mumbai & Hyderabad
- ATG global operations provides 70% cost savings across diverse functions for the company
- Manages Finance operations, Accounting and Taxation, Treasury Operations, FP&A, Sales Enablement, HR & Legal & SAP-ERP
- Enabled the SAP-ERP system in a quick period of 5 weeks so that clients of the company can sell products in India through ATG JV
- Office operations team follow a 24/7 model to cater US, EMEA and APAC regions
- ATG took care of all complex legal formalities including taxation for the company to enable them to set-up and start business in India from B2C perspective as part of JV
